Since our beginnings in 2014, we have been working as an incoming travel agency specialized in maritime tourism, but what is maritime tourism?

Because Galicia is a land linked to the sea, this kind of tourism will let you know the traditions and trades that surround the Galician coast, as well as the natural and historical environment through the seafaring professionals who work day after day.

What do we do?

1. We show the most maritime part of Galicia, with its seafaring customs, its places, its people and its secrets through our touristic experiences and our boat and walking itineraries.
2. We organize tailor made trips around Galicia for groups: families, schools and, especially, for companies with team building activities and incentive trips.
3. We organise special events throughout the coast of Galicia.
4. We give training in maritime tourism.
5. We advise coastal town councils, municipalities, business groups and local producers to create a sustainable and inclusive tourism offer for visitors.
